### Introduction

The Resonance Repatterning® Global Institute is internationally recognized, with Members, Practitioners, Mentors, Instructors and Masters in multiple countries around the world. We continually seek to review and update Membership benefits to provide the most up-to-date and useful services to our members. Membership provides enhanced support, whether you choose to use Resonance Repatterning® for home use or whether you are choosing Resonance Repatterning® as a career. This comes along with the distinction of being affiliated with a professional, centralized, international association, and the enjoyment of establishing connections and relationships with fellow Members. To practice Resonance Repatterning®, to use the Brand Name or the logo you will need to hold a Resonance Repatterning® license to practice and this includes a paid membership each year and a license to practice that includes the regulations on the trademark, logo of use, code of conduct amongst other, or you will not be able to utilize the name or logo.

### Membership Levels

There are currently 12 Membership levels and two categories of memberships: Basic and Premier.

Three of the levels are available to new members with no prerequisites to join. The others are exclusive to Practitioners and Mentors and Instructors. Each Level has its own logo if you are entitled to advertise your practice (as detailed under the membership level) this logo should be displayed on your marketing material and your website.

The Premier is an enhanced level of membership and to make it easier we have shown you a comparison between the two, so you can choose easily.

The Membership is payable each year by the end of January applicable for the forthcoming year.

12 levels seem like a lot we know! The reason for this is that we have many community members who have come from various training backgrounds through associations and through the institute, now that this has been combined, we feel sure we have covered every person from the Resonance Repatterning® community, in terms of where they are currently at. If you think there is one missing you can always let us know!
